French Play At Punahou Proves Rousing Success

The French play, "La Lettre Chargee," given by the French students of Punahou yesterday afternoon, was a success. More than two hundred tickets were sold. The play was given in French, and though a majority of the people present could not understand that language, the acting was so realistic that words were almost unnecessary.

The play was learned originally with no intention of giving it in public. It had been read in class and the students had learned parts of it for class work. Later on it was suggested giving the play in public and using the proceeds derived from it for some worthy school organization. This idea was well received. Rehearsals were held and were such a success that the students' hopes were raised still higher. The play was coached by Miss Arthur, the French teacher, and its success was due largely to her efforts.

The cast was composed entirely of girls and was as follows: Hortense, a young widow, Myrtle Schuman; Hector de Courvelin, a lawyer and fiance of Hortense, Elizabeth Woods; Petera Fougasson, an American, a little unbalanced mentally and in love with Hortense, Ruth Anderson; Franine, the maid, Alice Hoogs.

A short program preceded the play. Lyle Holmes played a piano selection, "Air de Ballet," from Moskovsky, and Miss Latham gave a vocal solo, "L'Ardis," from Ardis.

Both the piano and vocal solos were splendid. After this, Miss Arthur read a synopsis of the play in English and then the play was given.

The money derived from the play is to be used for the benefit of the Oahu, the school paper.

WORK OF VOCATIONAL GUIDES FORGES AHEAD

A meeting of the employment commission, which was appointed some time ago by R. H. Trent, president of the Young Men's Christian Association, to secure data for the proposed establishment of a vocational guidance bureau, was held at the Y. M. C. A. yesterday afternoon at three-thirty o'clock, at which several interesting reports were read by the members who have been collecting information from various employers throughout the city.

About one-half of the leading employers of the city have been canvassed with the object of finding the number of positions open, or which will be opened, to the young men and boys of Honolulu, and it is hoped that the preliminary canvass will be finished within the next two weeks. The different classes of employment will be reported on by the different members at that time, and Edgar Wood, principal of the Normal School, will have ready the report of his investigation of the problem of vocational education and vocational guidance on the mainland.

Messrs. Davies & Co., of the board of education, will present reports on ways and means for the best training of the boys and girls of the local schools to fit them for the vocations they will choose for their life work. All these reports will be written into one general report to be made by the commission to Mr. Trent.

MEDICOS SELECT DATE FOR NEXT SESSION

November 23, 24, and 25 are the days which have been set for the holding of the twenty-first annual session of the Medical Society of Hawaii. Following the opening address by the president of the society, the reading of papers will take place at the University Club during the afternoon of Saturday, November 23, and in the evening at eight o'clock the reading

LEPER VICTIM IS FOUND ON BOARD U. S. BATTLESHIP

BALTIMORE, Maryland, November 5.—An Hawaiian man named Kawai on the battleship Connecticut was discovered to have leprosy early in the week and sent to the naval yards at Philadelphia, where he was placed secretly in a boxcar supplied by the federal authorities and equipped as a hospital room with a physician and a nurse. The train left Philadelphia Thursday night for San Francisco where it is due tonight. The boy will then be sent to his home in Honolulu.

Kawai has leprosy in its most virulent form. His case was handled with profoundest secrecy by the federal authorities, who feared that the knowledge of the disease might create a panic on the Connecticut.

Kawai had been employed in the kitchen. Physicians examined every man on the battleship and none was found with any symptoms of the disease.

SURVEY COASTS OF MAUI ISLE

The island of Maui is to receive attention from the United States Coast and Geodetic Survey Service, with the arrival of the steamer Patterson, which vessel is to depart from the coast for the Hawaiian Islands within a few weeks, according to advices received here.

The Patterson, it is said, will take up work that was postponed by officers in the United States survey steamer Explorer, a visitor to the islands some two years ago. During the stay of the Explorer in these waters, her officers made complete surveys of the shore line of the island of Oahu. Some little time was spent in cruising and survey work along the shores of Kauai.

The Patterson is said to be under the command of Captain F. Westdahl, inspector in the United States Coast and Geodetic Survey Service, who has full charge of work in Alaskan waters during the spring and summer months.

The Explorer surveys omitted any call along Maui for the reason that their time in the islands was limited, and the vessel was ordered back to the North Pacific before a complete survey of Hawaii had been made.

SOCIALISTS POUR RAIN OF QUERIES ON MINISTER

At a large gathering of the Socialist party last night, Dr. Doremus Scudder presented his criticism of the socialist political platform and answered some intricate questions put by members of the party. The meeting was presided over by Miss Louise Gillich who read a copy of the criticisms made by Dr. Scudder.

As each criticism was read, there followed a heated discussion and the audience would call for an explanation and this was marked by a rapid fire of questions and answers. In regard to the abolishing of the National Guard, Dr. Scudder stated that such a thing could not be done until it was adopted by other nations.

and discussion of papers will continue. The reading and discussion will be concluded at the University Club at two o'clock Monday afternoon and in the evening at seven o'clock a banquet will be given at the Country Club. At Dr. C. B. Cooper's residence at Kahala beach, a picnic luncheon will be given Sunday afternoon at one o'clock.

ARTISTIC LAMPS GAS—OIL—ELECTRIC

Nothing adds more to the charm of the living or dining room than an artistic electric lamp.

Our present display of electric lamps exceeds in beauty and variety anything to which we have called your attention. The most exclusive productions of the world are assembled here.

COAT-OF-ARMS FOR ALL BOOKS IN LIBRARY

A meeting of the trustees of the Library of Hawaii was held yesterday afternoon at which the matter of marking all the books in the new library with the Hawaiian coat-of-arms was taken up. A drawing of the book-mark submitted by Philip Weaver, of the book committee, was adopted. It will not be until after the 40,000 books, which are now piling up in the new Library of Hawaii, have been marked, that the building will be formally opened, and although the matter as to setting the date for the opening was not brought up at the meeting yesterday, it is believed that the doors will be opened to the public about January 1. The drawing which was submitted will be prepared for the printed marks, and as soon as these are ready the work of pasting them in the books will start.

It was also decided at the meeting that the lecture room in the new building will be utilized as a public hall for public addresses and lectures which have a tendency toward education, but that no fee of admission is to be charged at such meetings, which will be made known to the public through the medium of the press. Such organizations, it is thought, as the Kiuhana Club, Honolulu Engineering Association, Medical Society of Hawaii, and Sons of American Revolution, will make use of the hall as their meetings are generally of a public nature. Those societies will be given shell room for books and papers pertaining to their work.

The matter concerning the agreement which was made between the trustees of the Library of Hawaii and the owners of the Honolulu Library and Reading Room Association in 1906 as to the matter of the ownership of the books and other property, as well as the funds of the old library association, was one of the most important items of business of the meeting. At the last meeting this matter was placed in the hands of R. H. Anderson, one of the trustees for the Territory, for his opinion. In his report yesterday he stated that the books purchased by the fund of \$5000 per year, which is the income of the Honolulu Library and Reading Room Association from outstanding investments, should belong to the library.
